OBJECTIVE

Motivated Computer Science graduate with a strong foundation in Python, SQL, HTML, CSS, and JavaScript. passionate about building responsive web applications and solving real-world problems through clean, efficient code. Seeking an entry-level Software Developer role where I can contribute to impactful projects while continuously learning, collaborating, and growing as a technology professional.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering	2022 – 2026
Miracle Educational Society Group of Institutions	Percentage: 72%
Intermediate (MPC)	2020 – 2022
Sri Chaitanya Junior College	Percentage: 80%
Secondary School Certificate (SSC)	2020
Municipal High School, Laxminagar	Percentage: 98%

TECHNICAL SKILLS

Programming Languages: Python, SQL
Frontend Technologies: HTML5, CSS3, JavaScript (ES6+)

PROJECTS

Data-Driven Retail Shelf Monitoring & Demand Forecasting

- Technologies: Python, Pandas, NumPy, Scikit-learn, ARIMA, Linear Regression
- Developed a data-driven retail shelf monitoring system to analyze sales data and forecast future product demand. Performed data preprocessing, feature engineering, trend analysis, and predictive modeling using Pandas, NumPy, and Scikit-learn.
- Built forecasting models using ARIMA and Linear Regression to improve demand prediction accuracy. Generated inventory insights that help reduce stock shortages and overstock situations.

Personal Portfolio Website

- Technologies: HTML5, CSS3, JavaScript
- Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information.
- Implemented modern UI design, smooth scrolling, animations, and mobile-friendly layouts using HTML, CSS, and JavaScript.
- Deployed the portfolio using GitHub Pages for online accessibility.

Interactive Interview Simulator

- Technologies: HTML5, CSS3, JavaScript, LocalStorage
- Developed a browser-based interactive platform for practicing role-based technical interviews with timed questions and automated scoring. Implemented dynamic question selection, difficulty levels, progress tracking, result analysis, and persistent interview history using JavaScript and LocalStorage.

CERTIFICATIONS

- Full Stack Web Development — Udemy (2025)
- Python & Soft Skills Training — GeeksforGeeks (2025)
- JavaScript Programming — Exceller Solutions (2024)
- Training & Placement Program — Exceller Solutions (2024)

SOFT SKILLS

Problem Solving | Communication | Adaptability | Teamwork
